Sounds like a plan. I'll look for some possible times on our end and coordinate with Paul.

Janice

Paul – I was able to chat with Janice and catch her up.

Janice – can you please organize a meeting for second half of June where we can walk through the materials we can share? I'm not envisioning a deep dive – more of an overview with some time for questions

Paul,

Nice to hear from you – hope you had a good holiday weekend.

Deliberative Process / Ex. 5

Does this help? Or should we schedule a call to discuss if anything is needed from your end earlier? I'm not sure what we can share before the protocol release, but we are certainly happy to discuss.

Sincerely,

Kris

**Subject:** arsenic status?

Hello, Kris,

When we spoke back in early December, I believe you indicated that you expected a scoping document (for an arsenic risk assessment) to be released during the first half of this year, including a list of citable sources. I believe a list of citable sources was also discussed during the February 12, 2018 webinar that you and your staff kindly provided. Is either of these available? I ask because we're getting started on a legislatively-mandated review of our arsenic MCL and groundwater standard.

Thanks.

Paul
